

# Dear Mr. President,

**If Evil and Tyrannical Rule is Unacceptable for Iraq and Afghanistan—**

## **Why is it Acceptable for Israel?**

Mr. President, please assert yourself and take back the power of your office which you have apparently turned over to Secretary of State Rice who is acting as if she were already the President of the United States. Do the right thing for the sake of the American people who voted you back into office as well as for the sake of the people of the free world. Please do not allow Peres and Sharon to destroy the land of Israel created out of the blood of 6 million innocent Jewish Men, Women and Children who died because of anti-Semitism simply because they were Jews.

History is repeating itself once again. The world has forgotten, Mr. President, and anti-Semitism is still alive and flourishing very well indeed. The Nazis are still among us, they are imbedded within the Arab nations surrounding Israel as well as within the European nations who hate Israel and want to see her destroyed.

America has always been Israel's only ally. Israel has always been America's only true friend and ally in the Middle East. Please, Mr. President, do not abandon Israel to those who would destroy her by turning your back on her for the sake of a global society.

We know that you know that the G-d of Israel is very much alive. And we also know that you know that the G-d of Israel does not look favorably on the abandonment of His Holy Land. In the end, Mr. President, we must each answer to G-d for our deeds. Please carefully consider how your current policies are endangering G-d's Holy Land.

As you must have heard, Abu Mazan has stated that his intent is to place missile bases in Gaza in order to strike at every major Israeli city once Gaza has been made Judenrein. Mazan has also said "we will not stop with Gaza, our next goal is Yesha and the capitol of Palestine will be Jerusalem!"

**It Is Not Too Late to Stop this Tragedy.  
Please Stop It Now, Mr. President.  
We Besech You In the Name of G-d.**
